LILIES OF QUALITY

LILIUM HARRISII (True Bermuda Easter Lily) Boddington's Quality Brand Pure Harrisii

Mr. Boddington visited Bermuda two years ago for the express purpose of looking into the Lily situation, examining the growing fields of Lilies and securing the finest and cleanest stock on the island. He was successful in doing this, so that we can with confidence offer the bulbs quoted below. The examination of growing crops is in keeping with our policy to secure only the best, even at an advanced price, and successfully to uphold the quality which we aim to sell.

SELECT NAMED DUTCH HYACINTHS

Don't be misled by low offers and cheap prices if you are looking for results

We buy only the very best goods in the following. Intending purchasers can rely upon all bulbs being thoroughly ripened, fully up to specified size and "quality" and true to name. We offer four sizes—Top-root, First, Second, Third or Named Bedding. These are Holland Standard sizes. We do not buy seconds and send out as first size, or third size and send out as second size, which device is usually practiced by firms who make ridiculously low prices. You can rely upon our goods.

Decoration Day, or May-Flowering TULIPS

It is surprising that these grand Tulips have not been more largely planted. As an early display, they are magnificent in their beauty and coloring, coming into flower, as they do, from **May 15 to the first week in June**, according to the season, and are most useful from a decorative point of view, after the early-flowering Tulips are past. The colors are various, as described in the following varieties, and their height, after being well established, **reaches nearly three feet in some types**. After planting, they need not be disturbed for years. There are many other beautiful late-flowering Tulips, but the following are a few of the most distinct varieties. Every florist, large or small, should invest in these late Tulips; they are indispensable at Decoration Day time, and, as stated before, when planted once are permanent and will pay you handsomely.

Bizarres. Handsome, rich flowers, with yellow ground, feathered or striped with crimson, purple and white; finest mixed.....	100	1000	\$1 00	\$9 00
Bouton d'Or. Has deep clear yellow, globular medium-sized blossoms, with curious black-anthered stamens.....	1	25	12	00
Bybloems (Violets). Late Tulips, with white ground, blotched, striped or feathered with lilac, purple, violet, blue or black; finest mixed.....	1	25	11	00
Bybloems (Roses). Superfine mixed.....	1	40	12	50
Darwins. Very large flowers of good shape, on tall, strong stems; for brilliancy of color they surpass any other Tulip; they include every known shade from the lightest tint to the brightest hue; finest mixed. (For named varieties, see page 9.).....	1	25	10	00
Elegans. Dark crimson, beautifully reflexed.....	1	75	15	50
Gesneriana macrospila. Crimson scarlet, black and yellow center.....	1	00	8	50

Gesneriana spatulata, or major. This variety has long been in cultivation. The beautifully curved flowers are brilliant scarlet, with a bluish-black center, on tall stems. A large group of this Tulip massed by itself looks very striking.....	100	1000	\$1 25	\$11 50
Gesneriana lutea. Beautiful, yellow, tall and handsome.....	1	75	15	00
Gesneriana Ixodes. Fine yellow with black center.....	7	50	70	00
Greigi. The beautifully formed flowers are of large size and of a gorgeous orange-scarlet color. Doz. 75 cts.....			7	00
Inglescombe Scarlet. Very brilliant scarlet, black base.....	2	25	22	00
Inglescombe Yellow. A large canary-yellow, perfect form.....	3	75	36	50
Inglescombe Pink. One of the best pinks.....	1	50	14	00
Isabella, or Shandon Bells. The petals are a rose color, flushed with white when they first open, and after two or three days it changes to a suffused deep rose and red color. Remains longer in bloom than many others; stands well when cut. 100			9	00

Single Late May-Flowering, or Decoration-Day Tulips

La Merveille. A magnificent variety with very large, sweet-scented blossoms. Salmon-rose, overlaid with orange-red. A grand border variety. 25 cts. per doz., \$1.00 per 100, \$7.50 per 1000.

Mrs. Moon. The finest late yellow; beautifully reflexed petals. A charming variety. 50 cts. per doz., \$4.00 per 100.

Maiden's Blush, or Picotee. Clear white, margined on the edge with pink. The flower is beautifully curved, but it is somewhat difficult to give a correct idea of the color. When it opens the petals are white and margined or penciled with pink to cerise. After two or three days the flowers change to a deep rose, and, unless one is acquainted with it, it would not be recognized as the same Tulip. It stands remarkably well when cut. \$1.25 per 100, \$10.00 per 1000.

Parisian White. Large pure white. \$1.25 per 100, \$12.00 per 1000.

Royal White. Pure white. \$3.00 per 100, \$28.50 per 1000.

Striped Beauty. Rose, flaked deep crimson and white; immensely pretty. \$3.00 per 100.

Vitellina. Pale primrose, passing off to pure white; a tall and exceedingly handsome variety. \$2.50 per 100, \$23.00 per 1000.

Boddington's "Quality" Superfine Mixture May-flowering Tulips, for acclimating, and for planting in herbaceous or shrubby borders. \$1.00 per 100, \$7.50 per 1000.

NARCISSI AND DAFFODILS

FRENCH GROWN GOLDEN AND SILVER SPUR (For Early Flowering)

Do Not Confuse These With French Trumpet Majors. From the reports of tests on Bulbs sent to some leading growers last year, we decided to import for this season a large quantity of the French-grown Golden Spurs and are expecting to make deliveries very shortly, and offer them till sold as follows. To be successful, plant early.

Golden Spur (French-grown). Will flower 2 to 3 weeks earlier than Holland stock. Extra quality. \$2.00 per 100, \$17.50 per 1000.
Silver Spur (French-grown). Extra Quality. \$2.50 per 100, \$24.50 per 1000.

Mr. A. T. Boddington,

Dear Sir:—The "Silver Spur" Narcissi Bulbs received from you last August flowered on the 10th inst. They are a welcome addition to the list of early-flowering Narcissi. Being earlier than Empress—which it resembles in color—will undoubtedly make it valuable commercially. We think so well of it that it will partly displace the early trumpets on our future Bulb list.

Very truly yours,

Duke's Farm, Somerville, N. J., Jan. 19th, 1912.

(Signed) A. A. Macdonald.

PLANT CULTURE

New and revised edition; copiously illustrated

By GEO. W. OLIVER, Propagator to the Bureau of Plant Industry, U. S.
Department of Agriculture, Washington, D. C.

WHILE we have published larger and more pretentious books (specially compiled for the trade) treating on specific subjects of plant life, such as, for instance, "THE AMERICAN CARNATION," "VIOLET CULTURE," "THE BOOK OF WATER GARDENING," yet, to the commercial grower who desires to find all data bearing on his business within the scope of one book, we unhesitatingly recommend this new edition of **PLANT CULTURE**, written especially at our suggestion by an expert plantsman, hybridist and propagator, who tells in language easily understood the best methods of handling all of the popular plants grown for commercial purposes, in or outdoors.

The author's purpose has been to provide a cultural treatise for each subject which would give in as few words as possible consistent with the object aimed at—**When and How to Propagate, When to Sow Seed, and How to Cultivate to Full Maturity**, and a glance through the pages of this book will at once reveal to the practical man the fact that the author has succeeded admirably in his endeavor.

Besides the cultural advice given, there are full instructions, accompanied by original drawings to elucidate the text, on the best methods of grafting, budding, layering, hybridization, potting, drainage, soil, mulching and watering.

Price, Cloth, \$1.50. New edition, revised and enlarged, fully illustrated with some one hundred halftone plates and drawings, handsomely printed on enameled paper and bound in Vellum de Luxe cloth; 12 mo., 308 pages. Or, The Florists' Exchange, two years, and Plant Culture, postpaid, all for \$3.00. Specimen pages on application.

OUR NEW BOOK OF DESIGNS

FLORAL DESIGNS DE LUXE

WE HAVE, to date, printed and sold out five separate editions of Design Books each one an improvement on its predecessor. With our added experience this new Book of Designs outclasses all productions to date, not only in point of artistic beauty, but in real, practical, every-day usefulness. Every Design shown is a useful Design, one that a customer is likely to call for at any moment. Every Design shown has been passed upon by a practical man as being a practical subject.

This Edition de Luxe will be sold only in cloth covers, very durably designed. Beyond the title page it contains no advertising and can pass with the customer as your own production.

It consists of 128 pages, size 9x12 ins., solidly filled with illustrations of every necessary subject, to which is added 32 pages of white paper for the purpose of pasting in other designs we may print and which you would like to preserve. The paper used is a heavy cameo plate finish, which lends to the designs an appearance of singular softness and adds much charm to the printed page.

Every design shown in our 32-page Solicitor's Design Book (the one you supply to your agents) is reproduced in our Edition de Luxe, and under the same number; thus you can at once identify from the larger book any order sent in by your agents.

Floral Designs de Luxe contains a reproduction of 355 Designs as follows:
